NOTE 1 – BASIS OF PRESENTATION AND NATURE OF OPERATIONS AND ABILITY TO CONTINUE AS A GOING CONCERN

a. Basis of Presentation

The financial statements include the accounts of Sea Dragon Energy Inc. ("Sea Dragon" or the "Company") at September 30, 2009 and December 31, 2008 and for the three and nine months ended September 30, 2009 and 2008 and the cumulative period from March 28, 2006 (inception) through September 30, 2009 and are presented in accordance with Canadian generally accepted accounting principles on the same basis as the audited consolidated financial statements as at and for the year ended December 31, 2008, except as outlined in Note 2. Accordingly, these interim financial statements should be read in conjunction with Sea Dragon's consolidated financial statements and the notes thereto for the year ended December 31, 2008. In these interim financial statements all dollar amounts are disclosed in Canadian dollars unless otherwise noted.

b. Organization

Sea Dragon was incorporated, under the *Canada Business Corporations Act* on March 28, 2006 to engage in the business of oil and gas exploration. The Company's planned business operations involve acquiring low entry cost exploration prospects, as measured on a dollar per barrel for proven and potential reserves in proximity to producing oil fields, and exploring for oil and gas reserves. Since inception, the Company's business activities have included incorporating and organizing the Company, financing and acquiring a 75% working interest and exploration activities in the East Wadi Araba area of the Gulf of Suez oil and gas concession (the "Concession Agreement" or "Egyptian Concession") (Note 7) and seeking out other oil and gas investment opportunities.

c. Ability to Continue as a Going Concern

These financial statements have been prepared on a going concern basis which contemplates the realization of assets and the payments of liabilities in the ordinary course of business.

For the nine months ended September 30, 2009 the Company reported a net loss of $15,020 and incurred negative cash flow from operating activities of $1,507. The working capital at September 30, 2009 was $6,729 and its restricted cash reserves were $4,442. During the third quarter a Letter of Credit in the amount of $1,759 was released by the Egyptian General Petroleum Corporation. Funds in this amount that had been held on deposit as security for the Letter of Credit that had been recorded as Restricted Cash were added to the Company's general cash reserves, reducing the Restricted Cash account accordingly. Subsequent to the third quarter another Letter of Guarantee was reduced by $4,344. This amount will be reported as a reduction to the Restricted Cash and added to the Cash balance in the fourth quarter (Note 5). After this adjustment, the restricted cash balance will be $98.

The future of the company is dependent on its ability to successfully acquire, explore, develop and produce economically viable reserves, and when necessary, raise capital. Management is engaged in several efforts to evaluate opportunities for the participation in oil and gas exploration and production ventures and is pursuing sources with debt and equity financing to match the possible acquisitions. During November 2009, subsequent to the third quarter, the Company completed a private placement and raised $14,240, net of related costs (Note 13b). Subsequently, the Company completed another private placement and raised $11,710,925, net of costs and issued 22,730,000 special warrants, each convertible to one common share for no additional consideration after the filing of a short form prospectus on or before April 1, 2010. Thereafter each special warrant is exercisable for 1.05 common shares for no additional consideration.

Management believes that these courses of action will allow the Company to continue its exploration and development activities and that the going concern assumption is appropriate.

NOTE 2 – CHANGES IN ACCOUNTING POLICIES

Goodwill and intangible assets, Section 3064:

In February 2008, the CICA issued Section 3064, *Goodwill and intangible assets*, ("Section 3064") replacing Section 3062, *Goodwill and other intangible assets* ("Section 3062") and Section 3450, *Research and development costs*. Various changes have been made to other standards to be consistent with the new Section 3064. Section 3064 will be applicable to financial statements relating to fiscal years beginning on or after October 1, 2008. Accordingly, the Company adopted the new standards for its fiscal year beginning January 1, 2009.

Section 3064 establishes standards for the recognition, measurement, presentation and disclosure of goodwill and of intangible assets. Standards concerning goodwill are unchanged from the standards included in the previous Section 3062. Also in February 2008, the CICA amended portions of Section 1000, "*Financial Statement Concepts*", which the CICA concluded permitted deferral of costs that did not meet the definition of an asset. The amendments apply to annual and interim financial statements relating to fiscal years beginning on or after October 1, 2008. Upon adoption of S.3064 and the amendments to Section 1000 on January 1, 2009, capitalized amounts that no longer meet the definition of an asset will be expensed retrospectively. The adoption of this standard did not have an impact on the financial statements.

Credit Risk and Fair Value of Financial Assets and Liabilities

In January 2009, the CICA issued EIC-173, *Credit Risk and the Fair Value of Financial Assets and Financial Liabilities*. The EIC provides guidance on how to take into account credit risk of an entity and counterparty when determining the fair value of financial assets and financial liabilities, including derivative instruments. This standard is effective for the Company's fiscal periods ending on or after January 20, 2009 with retrospective application. The application of this EIC did not have a material effect on the Company's financial statements.

New Accounting Standards

a) Business Combinations

In December 2008, the CICA issued Section 1582, *Business Combinations*, which will replace CICA Section 1581 of the same name. Section 1582 establishes principles and requirements of the acquisition method for business combinations and related disclosures. This statement applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after January 2011 with earlier application permitted. The Company is currently evaluating the impact of this changeover on its Financial Statements.

b) Non-Controlling Interests

In December 2008, the CICA issued Sections 1601, *Consolidated Financial Statements*, and 1602, *Non-Controlling Interests*, which along with Section 1603 replace existing Section 1600. Section 1601 establishes standards for the preparation of consolidated financial statements. Section 1602 provides guidance on accounting for a non-controlling interest in a subsidiary in consolidated financial statements subsequent to a business combination. These standards are effective on or after the beginning of the first annual reporting period beginning on or after January 2011 with earlier application permitted. These standards currently do not impact the Company as it does not have any subsidiaries.

c) International Financial Reporting Standards

On February 13, 2008 the Canadian Accounting Standards Board has confirmed that effective for interim and annual financial statements related to fiscal years beginning on or after January 1, 2011, International Financial Reporting Standards ("IFRS") will replace Canada's current GAAP for all publicly accountable profit-oriented enterprises.

The Company has determined that the most significant impact of IFRS conversion is to property and equipment. IFRS does not prescribe specific oil and gas accounting guidance other than for costs associated with the

exploration and evaluation phase. The Company currently follows full cost accounting as prescribed in Accounting Guideline 16, *Oil and Gas Accounting – Full Cost*. Conversion to IFRS may have a significant impact on how the Company accounts for costs pertaining to oil and gas activities, in particular those related to the pre-exploration and development phases. In addition, the level at which impairment tests are performed and the impairment testing methodology will differ under IFRS. IFRS conversion will also result in other impacts, some of which may be significant in nature. The impact on the Company's Financial Statements cannot be reasonably determined at this time.

NOTE 3 – FINANCIAL RISK MANAGEMENT

a. Capital Management:

The Company's capital structure consists of shareholders' equity, working capital and debt. The Company's objective when managing its capital is to ensure it has sufficient capital to maintain its ongoing operations, safeguard the Company's ability to continue as a going concern in order to pursue the acquisition of interest in producing or near to production oil and gas properties and to maintain a flexible capital structure which optimizes the costs of capital at an acceptable risk. The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the exploration and development of its interest in the Concession Agreement and to pursue other opportunities.

The Company defines and computes its capital as follows:

$000	**September 30, 2009**	**December 31, 2008**
Shareholder equity	**8,196**	22,868
Demand loan	**-**	-
Restricted cash	**4,442**	10,081
Cash	**1,969**	16,733
Total capital	**14,607**	49,682

The Company monitors its capital structure and short-term financing requirements using cash flow from operations and working capital. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

$000	**September 30, 2009**	September 30, 2008
Cash flow from operations	**(2,634)**	(1,333)
Working capital (deficiency)	**2,385**	22,592

Working capital as at September 30, 2009 has decreased from the December 31, 2008 balance of $10,096 to $2,385 as the Company used funds for operations and reduced its outstanding accounts payable balance. During the third quarter of 2009 the Company's restricted cash balance was reduced by $1,759 when the EGPC cancelled the letter of guarantee in the amount $US1,522 upon the completion of the cost audit of the EWA Concession (Note 5). Cash balances that secured the letter of guarantee and recorded as restricted cash were added to the Company's general cash balances and recorded in the cash balance and reduced the restricted cash account.

Subsequent to September 30, 2009 the Restricted Cash amount was reduced by a further $4,125 when the TransOcean Letter of credit was reduced from $US4,000 to $US200 (Note 13a). Cash balances that secured the

letter of guarantee and recorded as restricted cash were added to the Company's general cash balances and will be recorded in the cash balance and reported as a reduction to the restricted cash balance in the fourth quarter.

Subsequent to September 30, 2009 the Company completed a Private Placement and raised proceeds of $14,240 net of costs (Note 13b).

There were no changes in the Company's approach to capital management during the nine months ended September 30, 2009 compared to the year ended December 31, 2008. The Company is not subject to externally imposed capital requirements.

b. Financial Instruments:

The Company's financial instruments as at September 30, 2009 were comprised of cash, restricted cash, accounts receivable and investment and accounts payable and accrued liabilities. The fair value of financial assets and financial liabilities and information related to risk management positions and discussions of risks associated with financial assets and financial liabilities are presented below. Transaction and other costs related to the acquisition of financial instruments are expensed when they are incurred and are not included in the cost of the financial instrument.

(i) Fair Value

The investment in a convertible debenture issued by Prevail Energy Inc. (Note 6) is recorded at its cost which the Company believes was the fair value at the time as the price was negotiated by two unrelated parties acting at arm's length. The fair value of the investment is reviewed on an on-going basis by discussions and reports provided by the development stage issuer so that the Company can assess whether the operating plan upon which the investment decision was made is ongoing as was anticipated.

The carrying amount of the Company's accounts receivable, accounts payable and accrued liabilities approximates their fair values due to the short terms to maturity.

(ii) Risks Associated with Financial Assets and Liabilities

Credit Risk

The Company is exposed to credit risk in relation to its cash, restricted cash, accounts receivable, investment and the risk of financial loss if counterparty to a financial instrument fails to meet its contractual obligations. The Company maintains cash and restricted cash with a Major Canadian Chartered bank and therefore the Company considers cash to have credit risk which reflects the strength of the Company's bank. The Company's investment is in a debenture in a Prevail Energy Inc. (a Canadian private company) (Note 6). The Company received full repayment of the principal and accrued interest in January 2010. The Company's account receivable balance is primarily due from one entity and consequently the Company is exposed to concentration risk.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking harm to the Company's reputation. The Company monitors cash flows to ensure it has sufficient available funds to meet current and foreseeable financial requirements at a reasonable cost.

Management believes that the current working capital balance together with the funds raised by the private placement in November 2009 (Note 13b) will be adequate to support these financial liabilities.

Market Risk

Market risk is the risk that changes in market prices including commodity prices, foreign exchange rates and interest rates that will affect the Company' net earnings of the value of its financial instruments. The objective of market risk management is to reduce exposures to acceptable limits while maximizing returns.

Commodity Price Risk

Commodity price risk is the risk that the fair value of financial instruments or future cash flows will fluctuate as a result of a change in commodity prices. The Company will be exposed to commodity price risk after it has completed the acquisition of the sole purpose corporation that in turn owns a 10% interest in the producing NW Gemsa concession in Egypt (Note 10a).

Foreign Currency Exchange Rate Risk

The Company transacts business in both Canada and Egypt and purchases goods and services denominated in Canadian and US dollars. As a result, the Company has foreign exchange transaction and translation exposure. US dollar denominated transactions are translated into Canadian dollars at the rate of exchange in effect at the date of the transaction. Monetary assets and liabilities are translated into Canadian dollars using the exchange rates in effect at the balance sheet dates. Translation gains and losses are recognized in income in the current period. The Company has US$5,808 cash ($C$6,308) and a net balance of $US denominated accounts receivable, prepaid expenses and deposits less accounts payable of $US458 ($C equivalent is $498). As such, the Company has exposure to foreign currency exchange rate fluctuations at this time.

Sensitivity
The Company estimates a ten percent increase or decrease in the United States foreign exchange rate would have resulted in unrealized foreign exchange gain or loss, respectively, of $C700.

NOTE 4 – SIGNIFICANT ACQUISITION

On April 24, 2008, the Company acquired all of the outstanding common shares of Egypt Oil Holdings Inc. ("EOH") for 24,000,000 Sea Dragon common shares and the elimination of an amount of $765,000 that had been owed by EOH to Sea Dragon. The results of EOH have been included in the consolidated financial statements of Sea Dragon since that date until October 10, 2008 when EOH was dissolved and its assets and liabilities were amalgamated into the Company. EOH held a 35% interest in the East Wadi Araba Concession Area in Egypt ("the EWA Concession").

The purchase consideration reflected in the table below was calculated using a common share price of $0.1525 per Sea Dragon share, which was the estimated fair value of Sea Dragon's shares based on the most recently completed private placement transactions (less imputed value of warrants using the Black-Scholes option pricing model) prior to the share exchange with EOH.

The acquisition has been accounted for using the purchase method with Sea Dragon as the acquirer, and the purchase price was allocated to the fair value of the assets acquired and the liabilities assumed as follows:

Purchase price (*$000)*	
24,000,000 Sea Dragon common shares @$0.1525 per share	3,660
Amount receivable from related party	765
	4,425
Allocation of purchase price (*$000*)	
Cash	365
Accounts payable and accrued liabilities	(20)
Resource property	4,080
	4,425

EOH was dissolved on October 10, 2008 and its assets and liabilities were amalgamated into the Company.

NOTE 5 – RESTRICTED CASH

Restricted cash consists of cash on deposit that secure a Letter of Credit, and a minimum cash balance that secures corporate credit cards. These balances are held under the following terms:

$000	Terms	Amount ($US)	Amount($C)
a)	Minimum cash balance in $US denominated account to support the TransOcean letter of Guarantee	4,000	4,344
b)	Minimum cash balance in $C denominated account	90	98
		4,090	4,442

a) The TransOcean letter of credit, which secures the contractor's payment for the Transocean 103 off-shore drilling rig used to drill the East Wadi Araba 5-X well, was reduced to $US200 in October, 2009 and released in January 2010.

b) Security for corporate credit cards is a minimum cash balance of $C98.

c) The letter of credit for $US1,522 ($C1,759) that was provided to the Egyptian General Petroleum Corporation as security for the financial commitment of the East Wadi Araba concession in Egypt was released on September 1, 2009.

NOTE 6 – INVESTMENT

On December 22, 2008, the Company purchased a $300 convertible debenture issued by Prevail Energy Inc., ("Prevail") a private Canadian corporation with a joint venture interest in an oil and gas concession in The Republic of the Congo. The debenture bears interest at 15% per annum and matures on December 12, 2009. Any unpaid amounts of the debenture and accrued interest may be converted into the shares of Prevail at the rate of $C0.15 per share. If the full amount of the debenture and interest is converted, the Company could acquire 3,552,500 common shares of Prevail, representing 5.85% of all of the issued common shares of Prevail on a fully diluted basis. The Company has classified this financial instrument as a security held for trading.

NOTE 7 - PROPERTY AND EQUIPMENT

$000	**September 30, 2009**	December 31, 2008
Furniture and fixtures	**113**	45
Accumulated deprecation	**(16)**	(1)
Furniture & fixtures, net	**97**	44
Exploration and development expenses	**32,113**	20,677
Write-down of EWA Concession costs	**(31,141)**	(20,409)
Oil and gas properties, net	**972**	268
	1,069	312

Through a series of agreements entered into in 2005 and the acquisition of EOH (see Note 4) Sea Dragon held a 75% interest in the EWA Concession in Egypt. Under the terms of the Concession Agreement and the Joint Operating Agreement, the Company was obligated to drill one well during the first exploration phase and to drill two more wells and spend $US3.5 million on exploration activities. During the second quarter of 2009 the EGPC confirmed that the Company had completed its obligations under the Concession Agreement.

The Exploration phase of the Concession Agreement expired on July 17, 2009, and the joint venture relinquished the concession. Accordingly, all costs related to the acquisition of the concession, direct drilling and capitalized administrative and other overhead costs totaling were written off. This consisted of $20,409 that was written off during the year ended December 31, 2008 and $10,733 written off in the nine months ended September 30, 2009.

The costs remaining on the balance sheet are comprised of drilling materials and supplies.

The Company deducted as general and administrative expenses overhead costs allocated it by the EWA Concession joint venture relating to exploration and development activities during the nine months ended September 30, 2009 of $504 in Egypt. (2008 - Nil).

NOTE 8 – DEMAND LOAN

The Company has available a $US denominated revolving demand loan to a maximum of $US 6,000. The demand loan bears interest at the bank prime rate for $US borrowings plus 1.875%, is payable upon demand, and is secured by Treasury Deposits or Guaranteed Investment Certificates in $C funds plus a 5% margin to account for weekly exchange rate fluctuations. The balance outstanding as at September 30, 2009 is Nil.

NOTE 9 – SHARE CAPITAL

a) **Authorized**

Unlimited common shares with no-par value.

Unlimited preference shares with no-par value. No preferred shares are issued or outstanding at September 30, 2009 and December 31, 2008.

b) **Issued and outstanding**

Common shares with no-par value *$000, except for number of shares*	Number of Shares	Amount
Balance, December 31, 2007	40,747,500	1,948
Shares issued to acquire EOH (Note 4)	24,000,000	3,660
Shares issued through Initial Public Offering at $0.60 less offering costs of $4,075,553, which included all costs directly associated with the IPO	58,333,334	30,924
Shares issued upon conversion of the convertible debentures	21,428,571	7,500
Contributed surplus from convertible debentures transferred to common shares upon conversion of the debentures	-	412
Balance, December 31, 2008, and June 30, 2009	144,509,405	44,444
Compensation stock options exercised	68,500	14
Compensation warrants exercised	125,000	38
Contributed surplus on exercise of options and warrants	-	26
Balance, September 30, 2009	144,702,905	44,522

On September 17, 2009, the company issued 68,500 shares for 68,500 compensation warrants exercised at $0.20 per warrant. Total proceeds on exercise were $14 and the amount of contributed surplus transferred to common shares was $9.

On September 21, 2009, the company issued 125,000 shares for 125,000 warrants exercised at $0.30 per warrant. Total proceeds on exercise were $38 and the amount of contributed surplus transferred to common shares was $17.

On April 24, 2008 Sea Dragon issued 24,000,000 common shares to the shareholders of EOH in exchange for all of the issued and outstanding common shares of EOH, making EOH became a wholly-owned subsidiary of the Company (Note 4).

On July 15, 2008, the Company completed an initial public offering ("the IPO") and issued a total of 58,333,334 common shares for net proceeds of $30,924 after deducting $1,317 for legal fees, $105 of accounting fees and agents' commission of $2,100 being 6% of the gross proceeds raised on the offering. Pursuant to the agency agreement, the Company also agreed to grant compensation options to the agents entitling the agents to acquire a number of common shares equal to 6% of the number of common shares sold by the Company under the offering at $0.60 per share for a period of eighteen months after the common shares are listed on the TSX-V. As a result, the Company has granted 3.5 compensation options to the agents upon closing of the IPO. The fair value of the warrants was estimated to be $554 using the Black-Scholes option pricing model under the following assumptions: average risk free rate – 3.27%, expected life – 1.5 years, expected volatility 84.24% and expected dividend yield of 0.00%.

Concurrent with the closing of the IPO, convertible debentures were converted into 21,428,571 common shares at an aggregate value of $7,500 and $412 was transferred from contributed surplus to the value of the common shares. The Debenture holders were entitled to convert the debentures in whole or in part into common shares of the Company at a conversion price of $0.35 per share. The outstanding Debentures were automatically converted into common shares of the Company at the same conversion price upon the successful completion of the Initial Public Offering. The fair value of the Debenture financing, being the present value of the repayment obligation, was estimated using a discount factor of 16%. The Company allocated $7,113, to the debentures and $387 to the conversion feature (with an offsetting credit to contributed surplus). During 2007 and 2008, the Company recorded an aggregate accretion expense of $1,179 in respect of the discount.

As a condition of closing the IPO, the common shares held directly or indirectly by the directors or officers of the Company and the common shares held by shareholders of the Company who purchased or acquired common shares of the Company more than a year prior to the offering ("Seed Shares") were placed into an escrow agreement (the "Directors, Officers and Seed Shareholders Voluntary Escrow Agreement") with an escrow agent. On July 31, 2009, pursuant to the Directors, Officers and Seed Shareholders Voluntary Escrow Agreement and the

Egypt Oil Holdings escrow agreement 33,860,500 common shares were released from escrow. In accordance with the Canadian Securities Administrators Policy 46-201 ("NP-46-201") 12,710,998 common shares remain in escrow.

c) **Options**

On March 28, 2008, the board of directors adopted a stock option plan (the "Option Plan"). A number of common shares equal to 10% of the Company's outstanding common shares are reserved for issuance under the Option Plan.

The Option Plan provides for the grant of options to purchase common shares to eligible directors, senior officers, employees and consultants of the Company or any of its affiliates ("Participants"). The exercise periods and vesting periods of options granted under the Option Plan are to be determined by the board of directors. The expiration of any option will be accelerated if the participant's employment or other relationship with the Company terminates. The exercise price of an option is to be set by the board of directors at the time of grant but shall not be lower than the Market Price (as defined in the Option Plan) at the time of grant.

Any amendment to the Option plan would be subject to shareholder and regulatory approval.

Compensatory stock based transactions with directors, officers, employees and outside consultants are recorded at estimated fair value. The Company uses the Black-Scholes option pricing model to estimate the fair value of each stock option at the date of grant. The fair value of stock options, which vest immediately, is recorded at the date of grant; the fair value of options, which vest in future, is recognized over the vesting period. Stock options that vest over time are recorded over the vesting period using the straight line method. Stock options issued to

outside consultants that vest over time are valued at the grant date and subsequently re-valued on each vesting date. Stock based compensation is recognized as an expense with a corresponding increase in options and warrants to purchase common stock.

Consideration received on the exercise of stock options together with the related portion previously recorded in options and warrants to purchase common stock is credited to share capital.

On July 28, 2008 the Company granted 4,200,000 stock options under the option plan to certain directors and officers of the Company at an exercise price of $0.60 per share. The stock options vest in equal installments over a 3-year period. The options expire on July 28, 2013. The Company also granted 500,000 stock options under the option plan at an exercise price of $0.60 per share to a third party consultant in exchange for investor relation services. These options vest in equal installments over 3 years, the length of time in which the investor relations services are expected to be provided. These options also expire on July 28, 2013.

These options were ascribed a total fair value of $1,142 on the grant date, using the Black-Scholes option pricing model with the following assumptions: average risk free rate – 3.4%, expected life – 5 years, expected volatility 106% and expected dividend yield of 0.00%. Stock-based compensation expense of $296 was recorded during the nine months ended September 30, 2009 (2008 - $nil).

On August 28, 2009 the Company granted 3,500,000 stock options under the option plan to officers of the Company at an exercise price of $0.18 per share. The stock options vest in equal installments over a 3-year period. The options expire on August 24, 2014.

These options were ascribed a total fair value of $572 on the grant date, using the Black-Scholes option pricing model with the following assumptions: average risk free rate – 2.5%, expected life – 5 years, expected volatility 147% and expected dividend yield of 0.00%.

Stock-based compensation expense of $ 296 was recorded during the nine months ended September 30, 2009 (2008 - $73).

The following share purchase options were outstanding and exercisable at September 30, 2009:

	2009		2008	
Share Purchase Options	**Number of Options**	**Weighted Average Exercise Price**	Number of Options	Weighted Average Exercise Price
Options outstanding at the beginning of year	**10,107,921**	**$0.55**	1,228,832	$0.32
Granted	**3,500,000**	**$0.18**	8,879,089	$0.58
Exercised	**(68,500)**	**$0.26**	-	-
Options outstanding at the end of the period	**13,539,421**	**$0.45**	10,007,921	$0.55
Exercisable, end of December 31, 2008 and September 30, 2009	**6,781,088**	**$0.52**	5,407,921	$0.48

The following summarizes details about the Company's stock options granted as at September 30, 2009:

	Outstanding Options		Vested Options	
Exercise Price	Number of Options	Remaining Contract Life	Number of Options	Remaining Contract Life
$0.20	460,500	0.8 years	460,500	0.8 years
$0.35	1,378,921	0.3 years	1,378,921	0.3 years
$0.60	3,500,000	0.3 years	3,500,000	0.3 years
$0.60	4,700,000	3.8 years	1,566,667	3.8 years
$0.18	3,500,000	4.1 years	Nil	-
	13,539,421		6,906,088	

Unvested options as of September 30, 2009 will vest in accordance with the following schedule:

NOTE 10 – COMMITMENTS

a. On August 19, 2009, Sea Dragon announced it had signed a sale and purchase agreement to acquire all of the issued and outstanding shares of a sole purpose corporation that in turn owns a 10% interest in the North West Gemsa Concession, located approximately 300 kilometres south-east of Cairo, Egypt. The acquisition is subject to certain approvals and conditions precedent which the Company anticipates will be met prior to the end of 2009.

   The effective date of the acquisition is July 1, 2009. The purchase price is $US 12.5 million plus 10% of all operating costs and capital expenditures incurred by the Concession Joint Venture after June 30, 2009 less any revenues received by the vendor for crude oil produced after June 30, 2009. Management estimates that adjusted purchase payment upon closing will be approximately $13.3 million.

b. The Company has entered into an agreement to lease office space in Calgary, Alberta beginning on November 1, 2008 and ending on January 30, 2011. A payment has been made as a deposit for the first and last month's rent currently booked as deposit. The monthly rent is $11.

NOTE 11 – SUPPLEMENTAL CASH FLOW INFORMATION

Changes in operating non-cash working capital consisted of the following:

	Three Months ended September 30		**Nine Months ended September 30**	
$000	**2009**	2008	**2009**	2008

NOTE 12 – RESTATEMENT OF INTERIM FINANCIAL STATEMENTS

The Company has made the following changes to its interim financial statements for the three and nine months ended September 30, 2009 to revise the characterization and presentation of EWA Concession assets and the timing and allocation of foreign exchange gains and losses and impairment of oil and gas properties.

	For the nine months ended September 30, 2009		
$000	As previously Reported	Adjustment	As restated
Prepaid expenses and deposits	74	75	149
Accounts receivable	18	619	637
Property and equipment	2,145	(1,076)	1,069
Accounts payable	435	(29)	406
Foreign exchange loss (gain)	726	645	1,371
Impairment of oil and gas properties	11,025	(292)	10,733
Net loss	(14,667)	(353)	(15,020)
Cash used in operating activities	(2,634)	1,127	(1,507)
Cash used in investing activities	(12,181)	(1,127)	(13,308)

	For the year ended December 31, 2008		
$000	As previously Reported	Adjustment	As restated
Prepaid expenses and deposits	38	1,413	1,451
Accounts receivable	-	666	666
Property and equipment	2,391	(2,079)	312
	For the nine months ended September 30, 2008		
Cash used in operating activities	(1,333)	(907)	(2,240)
Cash used in investing activities	(12,054)	907	(11,147)

NOTE 13 – SUBSEQUENT EVENTS

a. On October 13th, 2009 the Company received notice that the Transocean Letter of Guarantee had been decreased by a further US$3,800. Funds remaining restricted under this Letter of Guarantee amount to US$200 extended to November 28, 2009.

b. On November 6, 2009 the Company completed a private placement of 60,000,000 units at $0.25 per unit consisting of one common share and one half share purchase warrant. Each whole warrant is exercisable into one common share at a price of $0.50 for a period of 36 months from the closing date of the offer. Gross proceeds raised were $15,000 and net proceeds of $14,240 will be used to fund the acquisition of a 10% interest in the NW Gemsa concession in Cairo and supplement working capital.

c. On November 9, 2009 the Company granted 1,750,000 stock options with an exercise price of $0.50 per option under the Employee Stock Option Plan to certain officers, directors and individuals providing consulting services. The options vest in three equal amounts on each of the first three annual anniversaries of the issuance, and expire on November 9, 2014.

d. On January 22, 2010, the Company received full payment of the principal and accrued interest of the convertible debenture issued by Prevail Energy Inc. (Note 6).

e. On January 15, 2010 the Company issued 22,730,000 special warrants for gross proceeds of $12,501, less the Underwriters' fee of $625 and other expenses estimated to be $300. Each Special Warrant will entitle the holder thereof to receive, subject to adjustment in certain circumstances, one (Common Share on the exercise of the Special Warrant for no additional consideration. In the event the Company is not qualified to issue the Common Shares under this offering by April 1, 2010, each warrant will be exercisable for 1.05 Common Shares for no additional consideration.
